PROFILE

Web developer for now based in Cali, Colombia; looking for opportunities to enhance my technical skills on my field of web design and development, implementing responsive web design techniques like mobile first approach, and adding functionality with javascript to perform certain features on the website, using mainly vanilla JS but moving to React and Angular, on the back-end I'm into PHP in junior level, I'm a self-driven and resilient person always willing to learn more in depth about all concerning with my web design and developing skills.

EDUCATION

Northern Virginia Community College NOVA (NVCC), Annandale, VA

Web Designer and Developer

Summer 2021 - Summer 2022

Worked on Adobe Multimedia tools such as Photoshop, Premiere Pro, Animate, and Dreamweaver.

EXPERIENCE

NOVA, NVCC Annandale, VA, USA -

3D design and project Intern

Sep 2021 - May 2022

- Utilized web-based software to process images into 3D pictures.
- Communicated in an assertive way with my co-workers to thrive in the project.
- Received orders and performed accordingly.
- Confirmed requirements with the clients were fulfilled.
- Worked with the 3D viewer model of Google to display 3D image in browsers.

Supermarket Olimpica, (STO) Cali, Colombia -

Leader of deliveries

March 2020 - June 2021

- Utilized web-based software in order to fulfill client orders.
- Expressing clearly and ensuring utmost client satisfaction.
- Collaborated with other departments when needed.
- Received orders and performed regular system updates.
- Checked stock availability..
- Solved additional inquiries about products or payment methods.
